Career Information:

As per a recent news report, pharmacy jobs have got a boost during the current pandemic. The report on behalf of a job website says that job postings under pharmacy head in February-September, 2020 period saw a 56 percent increase. Pandemic or no pandemic, pharmaceutical sector is always vibrant and pharmacy jobs are always in demand. People fall ill and take medicines to recover from their illness. So, we can understand importance of pharmaceutical science and pharmacy jobs in this contemporary world.

Pharmacists are directly involved in patient care and work with existing drugs. As healthcare professionals they provide valuable advice on safe and effective use of medicines and monitor effects of drugs as prescribed by a doctor. They are involved in patient care by performing their duties at pharma manufacturing units, hospitals, medicine stores and as support staff to doctors and medicinal experts.

Courses and Educational requirements: A specialized discipline study of pharmacy and related subjects can be made after you complete your SSC or 10+2. Many of the students go for Diploma in Pharmacy, commonly known as D.Pharm.

Diploma in Pharmacy is a two years course to which students having passes 10+2 with Science subjects are eligible. The course provides the minimum essential qualification to get registered as Pharmacist in India & operate Retail/ Wholesale & community pharmacy and employment as hospital pharmacist.

The area of Pharmaceutical Science or Pharmacy is open to only science students, i.e. students who have completed their 10+2 with Physics, Biology and Chemistry. On the basis of this qualification one may apply for D.Pharma or an undergraduate degree in Pharmaceutical science or Pharmacy. An undergraduate qualification in Pharmacy may come in the form of Bachelors of Pharmacy (B.Pharma) while usually a B.Sc degree is offered in Pharmaceutical Science. Postgraduate courses may have nomenclatures as M./Pharma. MBA with specialization in pharmaceutical management is also available. There are enough research opportunities in Pharmaceutical science and interested candidates may enroll for a Ph,D in the subjects.

Admission Process: Different states conduct joint entrance examinations for various graduate courses at recognized universities and institutes within their state. Admission to B.Pharma may also be covered under this. Questions are asked from Physics, Chemistry, Biology and Mathematics. Graduate Pharmacy Aptitude Test (GPAT) is conducted by National Testing gency for admission to M.Pharma courses at various recognized institutes. Candidates having completed 4 years B.Pharma courses ar considered eligible.

Here are some Universities which have courses on Pharmaceutical Science:

- Institute of Chemical Technology, Mumbai

- Poona College of Technology
- Maharaja Sayaji Rao University, Baroda
- Delhi School of Pharmaceutical Sciences and Research
- Government College of Pharmacy, Amravati
- Jadavpur University, Kolkata
- Government College of Pharmacy, Aurangabad
- Al Ameen College of Pharmacy, bangaluru
- Dibrugarh University, Assam
- Regional Institute Of Pharmaceutical Science And Technology, Agartala
- university institute of pharmaceutical sciences Chandigarh, Punjab.
- Etc.

Career Avenues: Career opportunities in Pharmaceutical Science are spread both in private and government sector. Considering the population size of India, the country itself has huge demand of drugs. At the same time India is also a big exporter of drugs. Candidates can also start their own business after getting their pharmacist license. Some of the career prospects and job opportunities in Pharmacy available to pharmacy graduates in India are as follows:

- Chemical/Drug Technician
- Drug Therapist
- Hospital Drug Coordinator
- Bio-Technology Industries
- Drug Inspector
- Health Inspector
- Making Prescription to Patients
- Pharmacist
- Research Officer
- Pathological Lab
- Scientist
- Research & Development
- Etc.
