- **Career Information:**

Career Opportunities in Risk Analysis and Management:

The act of planning to face the eventualities of a risk is known as risk management. In a wider perspective and when the stakes are high, understanding risks, analyzing and managing them becomes a serious matter. We need risk management skills in our life, but here we are going to talk about risks in business and enterprise perspective which may lead to understand what a career in risk management means and how those, who find it interesting, can find their way to it. A business is exposed to so many risks. In simple terms risk is the possibility that an outcome will not be as expected, specifically in reference to returns on investment in business. A risk is a risk because we are not sure about something. So risk can never be completely avoided, we can simply take some steps to mitigate it or reduce its adverse effects.

Courses: There are few courses which may directly or indirectly help you to take up a risk managers role. If you choose to do Chartered Accountancy courses, after getting some experience, may look forward to work in the area of risk analysis and risk management. This applies to Chartered Financial Analyst course as well. The other route is to take up a two years full time programme of MBA or Post graduate Diploma in Management with specialization in Finance.

National Institute of Securities Market conducts courses like Post Graduate certificate in Management, post graduate diploma in Management. NISM certified course in Securities Market is conducted jointly with some management course in some institutes.

One has also the option to take up courses purely focused on risk management. These include:

Financial Risk Manager: This is a certification provided by United States based Global Association of Risk Professional. There are two parts to the examination:

Operational Risk Modelling Programme: There may be a number of such programmes at different institutes. An Indian company Edupristine also offers this course.

Certified Credit course analyst: Association of International Wealth Management of India (AIWMI) provides this certification and as the name suggests, is focused on credit domain.

Professional Risk Manager: Professional Risk Manager's Global Association is the regulatory body for a number of certification courses.
