CAREER TIPS

The Best Future Job Opportunities

1. Digital Marketing

A good digital marketer is one who has good knowledge of Web Analytics, Social Media Platforms, Search Engine Optimisation and Advertisements, E-mail Marketing, and Algorithms used by Search Engines.

In recent years digital marketing has seen colossal growth, so much so that by 2022 itself it is expected to create over 20 lakh jobs in India, making it one of the **best future job opportunities in India in 2022** that one can prepare for.

2. Robotic Engineer

Even though India is slower than the developed nations, it is not so far behind, there are many start up in the

country who are mainly focusing on developing robots and robotic technologies.

In many dangerous jobs in Defence, Nuclear, and even Space robots have taken over humans, like the drones that many militaries uses for surveillance and even attacking the terrorists.

3. Actuarial Science

Actuaries are the people who undertake the maths and science of insurance which assesses worth, liabilities, and even risk among many other factors.

With the Indian economy expanding, the need for Actuaries is also rising and will rise even further in the future.

4. Cyber Security

With the advancement of technology and the use of the internet, people, more than ever, are now using online services, and with that, the risk of cybercrimes are increasing as well and so is the need of cybersecurity specialists.

5. Back-end Developer

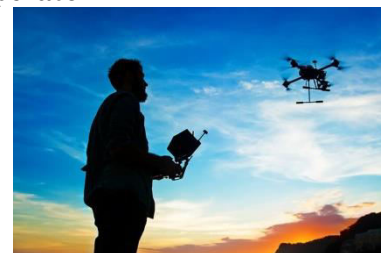

6. Career Counselor

7. Data Scientist

8. Banking Career

The banking sector is going to take over 3rd position in the world as it is growing at a very fast pace, especially with the government owned public sector banks growing. And with this growth, the need of the employees in the banking sector is said to increase in the coming year.

9. Drone Operator

Forest Survey of India's Director General, Dr. Subhash Ashutosh says that drones are the latest technological addition to their data acquisition methodology. Many other organisations and companies are exploring the use of drones in their operations, like

in accessing the severity of any disaster or mishappenings and much more.

10. Dietician

11. Financial Planner

Finance is one thing that a person wants to be taken care of irrespective of how the economy is doing, if the economy is doing good, then you want to invest to get highest returns if the economy is going south, you want to invest where your money is safe.

This is where financial planners come into the picture, people from all income groups need financial planners, and this job has been creating jobs for a long time and will continue to be amongst the best job in future in India.

12. Event Manager

With life getting hectic as it is, and a social image that people try to keep up they want their events to be lavish but without giving their much time in planning and executing the same. This is where the event planners come in, from a simple birthday to Olympic level events, they take care of it all.

13. Interior Designer

14. Environment Management

15. Marriage Counselor

16. Machine Learning Professionals

17. Recruiter

A recruiter's job is to find the right talent who will be the right fit for the organisation. The

negotiations and testing of the candidates are the vital roles that a recruiter has to take care of. In the past, the recruiters were deemed as the cost to a company, but now it is shifting as companies realise how important it is to attain an employee who not only has the right skill set but is also in harmony with the vision and culture of the company. Recruiters are not considered to be an asset to the company.

A recruiter's job is not easy, as it has to have a basic understanding of all the functions that are undertaken by the company, including but not restricted to finance, sales, manufacturing, and marketing.

19. Physiotherapist

As technology advanced, it proved out to be a boon, but had its own curses too. As technology progressed, the need of human interventions in even the smallest of works is going out of fashion, like you can control almost all of the electronics in your home even when you are not in your home, with the help of remotes or AIs like Siri, Alexa, and even Google Assistant.

As people are now undertaking fewer laborious tasks, there has been a rise in injuries like cervical, still neck and back, joint pains, and even sports injury (especially, when you play it after long a gap). This change in lifestyle has not only bought ease but pain, too, to the human race.

A physiotherapist treats such injuries using both machines and physical methods which includes laser treatments, massages, and even hydrotherapy.
